## **Product Information**

according to 1907/2006/EC

Revised	:	September 09, 2016
Version	:	189/4 en

1. TRADE NAME		
STABILO® sensor® 187 STABILO® sensor® 189		
2. ARTICLE NUMBER		
187 / 189 /		
3. SUPPLIER DETAILS		
STABILO International GmbH		
Schwanweg 1, D-90562 Heroldsberg		
Further product information: info@stabilo.com or www.stabilo.com/de/faq		
Emergency - Hotline: Poison Information Centre Munich Tel.: +49-89-19240		
4. PHYSICAL AND SAFETY DATA		
Fineliner with water-based ink, four writing colors, excellent cap-off time, metal-rimmed elastic plastic nib for		
comfortable writing. Casing and ventilated cap made of polypropylene.		
Line width 0.3 mm (fine) and 0.7 mm (medium), suitable for work with rulers.		
When stored and used properly, no hazardous reactions can be expected. In case of fire, carbon monoxide		
(CO), carbon dioxide (CO2) and with some colors nitric oxides (NOx) will be set free as thermal		
decomposition products.		
When not used properly, some colors may stain the skin, mucous membranes or clothing and fabrics. In		
some materials, the stain might be permanent.		
some matchale, the stain might be permanent.		
In case of contact with the eyes, rinse out open eye thoroughly under running water for several minutes. If		
complaints persist, contact an ophthalmologist.		
Based on the Regulation (EC) No. 1907/2006 ("REACH"), this commercial product is not a hazardous		
substance, a hazardous mixture or a hazardous substance in an article. Therefore a Safety Data Sheet is		
not required according to article 31 of the REACH Regulation.		
5. TRANSPORT INFORMATION		
Not classified as dangerous goods with respect to the transport regulations.		
6. ECOLOGICAL INFORMATION / DISPOSAL CONSIDERATIONS		
The writing instruments may be added to the household waste in small quantities.		
Larger quantities are to be disposed of under compliance with local public authority regulations, e.g. at a		
suitable waste disposal site or incinerator.		
Only small quantities of dyes are contained in the inks. They are, however, very durable- on account of their		
intended use and therefore biodegradability in normal conditions in sewage works or in surface waters is		
difficult. They can, however, be sufficiently adsorbed in the activated sludge and eliminated from the water.		
7. OTHER INFORMATION		
The information herein is based on our present state of knowledge and on data considered to be accurate		
as of the date of preparation of this Product Information and is intended to describe our products from the		
point of view of safety requirements. However, no warranty of representation expressed or implied is made		
as to the accuracy or completeness of the foregoing data and safety information. The user assumes all		
liability for any damage or injury resulting from the abnormal use from any failure to adhere to recommended		
practices or from any hazard inherent in the nature of the product. The article and its packaging materials		
contain no substances included on the candidate list according to article 59 (1,10) of Regulation (EC)		
No.1907/2006 (REACH) in a concentration above 0,1% weight by weight.
