Wabenstruktur und Belüftungsöffnung sorgen für ein optimales Feuchtigkeitsambiente. The honeycomb structure and air slots ensure an optimal humidity environment.

Der erhöhte Siebkorb führt zur besseren Luftzirkulation. The elevated basket promotes proper air circulation.

Das Fresh Filter System adsorbiert Ethylengas, was Früchte und Gemüse länger frisch hält. The Fresh Filter System adsorbs ethylene gas, keeping produce longer fresh.

Stop food waste! The innovative boxes are actively cocooning your food. The best environment for your fruit and vegetables. The dynamic boxes keep the right humidity and reduce the ethylene thanks to a filtering system that comes directly from the food industry. The consequence? They keep fruits and vegetables fresh for longer and therefore help you to produce less food waste - for the sake of our nature, inspired by nature.
